VOL 28 BLOOMSBURG, PA., FRIDAY, JUNE 16, 1893. NO 25

Council Proceedings.

The regular meeting of the Town Council was held Thursday evening last week all the members present. A building permit was granted G. P. Frymire for a two story frame dwelling house on East street.

Wm. Knorr, requested the use of Oak Grove on July 4th for the band. Request granted.

Wm. Chrisman, Esq, representing C. M. Chrisman, wanted interest on the amount awarded said Chrisman by the viewers appointed to open West street from the time the exceptions to the said report were withdrawn and the report confirmed, and desired the council to issue an order for the amount. After considerable discussion, upon motion of Peacock and Gorry an order was issued, but to be without interest until paid.

J. R. Townsend presented a petition signed by a large number of the property owners residing on Second street between East and Penn, requesting the council to change the location of gutter by placing it 10 feet from the curb line toward the centre of the street. The owners to do all the grading necessary and to sod or sow grass seed in the said 10 feet, the same as Market. Granted.

A petition was presented signed by the merchants of the town asking the council to pass an ordinance preventing the selling of any goods on the street, without first procuring a license from town authorities. Upon motion the matter was referred to a committee consisting of Knorr, Swentzel and Housel who were to consult with the Solicitor in reference to the matter.

A petition was presented signed by property owners residing on East Third street asking for sewer on said street. The matter was laid on the table until the question of opening said street was settled.

A petition was presented signed by all the property owners residing on said street requesting the council to open the same in accordance with the ordinance passed. This invoked quite a discussion which was participated in by J. L. Dillon, Hon. Grant Herring and others. It was finally decided to lay the whole matter on the table and dispose of it at a special meeting to be held Monday night, when all parties could be heard.

Complaint was made of the grade at the corner of East and Penn streets. The matter was referred to the Town Engineer and Committee on Streets.

The question of water on lot of Mrs. Rupert rear of Seventh street was referred to the Street Committee.

A petition was presented asking for an electric light on West Main street opposite the residence of Dr. I. L. Rabb. The matter was laid on the table.

Complaint was made of the privy on the lot of Mrs. Leonard Rupert occupied by Jerry Saltzer and a resolution was passed requiring her to remove the same and connect with the sewer in 30 days. Upon failure to do so the town would do it and collect it.

Dr. Willits appeared and asked that the gutter along Fifth street side of his property be cobbled. The matter was referred to committee.

All matters in regard to the extension of sewers are hereafter to be referred to the committee on highways and the Town Engineer.

Upon motion of Peacock and Gorry an order was drawn at 90 days for $3000 which the President was to have discounted and with the proceeds pay such of the floating debts as he deemed advisable.

Upon motion the Street Commissioner was instructed to spend a few days in putting the Park in a proper condition.

The following bills were presented and ordered paid:

Bloomsburg Car Co., Mdse..	$ 1	11
Geo. B. Martin, burying dog.		50
Water Company.....	55	83
" " Hydrants, &c.	33	35
Gas Co., for Town Hall Dec. to May.....	3	00
Eshleman & Wolf, Iron street sewer.....	157	64
P. K. Vanatta, Painting Fountain.....	14	00
Creasy & Wells, Mdse.....	9	59
Steam Co.....	6	12
W. O. Holmes, Fence around Fountain.....	129	26
Wm. Krickbaum, Printing...	70	00
R. H. Ringler, Secretary 1 mo	20	00
R. H. Ringler, making tax roll and statement.....	50	00

A special meeting of Town Council was held Monday evening with all the members present.

Hon. Grant Herring appeared in the matter of the opening of East Third street, and stated that after a careful search he was unable to find the records and therefore could not ascertain if the exceptions which had been filed to the report of the viewers had been withdrawn. He was willing to take an order for damages awarded his client, the order payable in one year, without interest. Council directed the solicitor to investigate the matter and if legal prepare an ordinance vacating the alley, when the said street was opened.

The committee on highways reported that they thought it advisable to allow the grade to remain as it is at the corner of East, Scond and Penn streets.

The committee appointed in the matter of granting licenses to hawkers and peddlers submmitted an opinion proposed by the solicitor in which he said that they could not grant such license. An Act of Assembly positively prohibits the same in Columbia county, except to disabled soldiers. The merchants should enforce the present law.

The solicitor was instructed to prepare an ordinance for the opening of west Third, and Barton streets and widening west Second street, per proposition of Mrs. Rupert and others.

Appeal day was fixed for July 3, 1893.

The resolution in regard to changing the gutters on east Second street from East to Penn streets were amended requiring property owners to furnish curbing for the gutters.

The petition for electric light in west Main street was granted.

Building permit granted T. L. Gunton for a two story frame dwelling house on Jefferson street, between Third and Fourth streets.

A WARNING TO GIRLS.

If there are any young ladies who have received flattering offers to positions in the World's Fair city, we advise them to read the following clipping from the Cleveland Leader carefully before accepting a situation from any unknown source:

"From many reliable sources come grave warnings to girls and young women who contemplate going to Chicago this summer to secure employment and thus get a chance to see the fair and make some money besides. Scores of the advertisements which are inserted in many country newspapers for help, promising light, pleasant employment to young women and girls, are the lures of the procurer and will doubtless drag many innocent young persons into dens of vice and iniquity. It is true there is an abnormal demand for help in Chicago this summer, but the young woman who answers an advertisement and goes to the city without having proof of the character of her employer is very apt to step into a pitfall. Every paper in the country should hasten to publish a warning. It is part of the duty of the public press to protect as far as possible the honest, well meaning working girls of their communities, and to put them on their guard against such a fate.

STATE LAWS.

Hereafter all laws passed by the State legislature will be found at the Prothonotary's office ten days after they have been signed by the Governor. Heretofore the laws have been received at the office about two months after the adjournment of the Legislature. They will appear in uniform unbound leaves and will be kept for inspection by the public for one year after their receipt, Prothonotary Quick now has on file the laws approved thus far for this session by the Governor.

The D. L. & W. R. R. Co. has issued its annual book of summer excursion routes and rates. It is neatly printed, and handsomely illustrated. The road and its branches run through many popular summer resorts, and are surrounded with beautiful scenery, in the states of New Jersey, Pennsylvania and Ohio.

The Provisional Certificate.

The time for teacher's examinations is at hand, when such certificates will be granted or withheld, as may seem best to the County Superintendent. It is not an unusual thing for wise and good men to differ in opinion on matters of public interest. Hence it will hardly be considered strange, if a country clod-hopper should differ in some points from a man of literary repute. Be that as it may, I shall take the liberty to express an opinion in regard to the provisional certificate a little at variance from that expressed by the State Superintendent in his last two reports. He seems to regard them or the persons holding them as almost an unmixed evil, that should be got rid of as early as possible. In his haste he seems not to be governed by that calm deliberation which should and generally does characterize the man.

If I understand the State Superintendent aright, when a person has taught three terms with a provisional certificate no matter how successful he or she has been as an instructor or how well they have satisfied their employers, they should be cast overboard and the place filled by perhaps an inexperienced teacher, unless in the judgment of the County Superintendent the person is entitled to a higher grade of certificate. Such act it seems to me might in many cases be an injustice, both to the teacher and the school. Believing as I and many others do, that there has been and still are good teachers who never have held any but a provisional certificate. I think it would be the part of wisdom to make haste slowly in our efforts to get rid of them. At least we had better be sure that we have some one as good or better to put in their place before we discard them.

There are many cases in which the number of provisional certificates may well be limited to three, and perhaps one would be still better, and none best of all.

A normal diploma or permanent certificate does not always insure a good teacher. We very naturally suppose that the drill a student gets at a normal school produces a better teacher than the same person would be without that drill. But it requires a certain natural adaptation to a business of any kind, if the person following it is going to be a success at it. School teaching is no exception to the rule. You might as well try to make a whistle out of a pig's tail, as to try to make a successful teacher of one who has no natural aptitude for that kind of work. I do not believe, that a certificate is always a correct criterion by which to judge a teacher's qualifications. I think it is difficult if not impossible for a Superintendent in the short space of time generally spent with a class of candidates, to be sure that he is doing equal and exact justice to all.

I think that I could point to more than one instance in which the candidate was actually a better scholar than the person conducting the examination, and yet they only got a provisional certificate. If I am not mistaken in this, who will say that it was just?

I have positively known at least one instance in which two persons were passing examination at the same time, when the best scholar received the lower grade of certificate. In such case we must conclude, either that the Superintendent was mistaken, or that he was governed by partiality or prejudice, but in either case an injustice was done. The only safe criterion by which to determine a person's worth as a teacher is his or her work in the school room.

Their every day life is a better guide to determine their moral character, than the Superintendent's certificate, no matter how correct his own morals may be.

JAMES I. CAMPBELL

DROWNED.

A little three year old boy named George Chromis was found floating in the canal near Catharine street on Monday near noon. He was at Neal's furnace at about eleven o'clock, and his grandfather John Fry sent him home. Mrs. Fry saw him near the house a half hour later, but at dinner time he did not appear. It is supposed that he fell off the bridge at the furnace Dr. Redeker was summoned, but decided that an inquest was not necessary.

A barn belonging to David Brady of Greenwood was destroyed by fire Monday afternoon. Two little girls were playing in the barn in the afternoon, and by means of matches fired the building.

Starve House Flies.

THIS METHOD BEATS EVERY VARIETY OF FLY TRAP YET INVENTED.

From the New York Ledger.

"No, thank you, my dear. I do not want any fly papers or fly traps about my house. I learned a great many years ago that the more things we have to call flies the more will come. In a neighborhood where flies were simply a nuisance I lived almost unmolested by them because I never permitted a particle of stale food to accumulate about the premises."

"Flies, like a good many other things, will never stay where they are in danger of starvation, and I never kept anything about the place to feed them with, not even fly paper. Everything that could not be burned was carried as far from the house as possible and burried. All garbage is valuable as a fertilizer, and I utilize it as such.

"It is my opinion that every form of fly paper, fly poison and fly trap, which is baited with any substance, is just so much inducement for them to stay around the house. They think—if flies think at all—that they are going to get something to eat, and, therefore, hang around. The best fly preventive is starvation."

CAUGHT.

Edward Newhard who stole $500 from David Mauser a few weeks ago, was captured last Saturday at Sunbury. He first went to Philadelphia, thence to Morris Plains, N. J. and then back to Sunbury, where he was recognized and arrested. He had two gold watches and $250 in money when he was taken. He was brought here and lodged in jail.

I SHALL BE SATISFIED..

BY ELLEN OLIVER VAN FLEET.

I shall be satisfied! I shall be satisfied!
But Oh, not now my restless heart, not now!
Not till lips' vexing problems, patiently are wrought,
Not till its many burdens all are lain aside—
And evermore each fretting task is done.
Not till the imperious will with utmost human might
Has striven to compass Heaven, and bring its glories down.
To make a deathless pleasure ground of changing earth,
Striven, and failed, and found that failure sweet.—
Not till this glowing fever ebbs to pulseless calm,
And paints the throbbing brow a pallid, painless hue,
Not till my toil-worn hands, lie folded, cold and white,
And quiet rest my weary feet, their every errand done.
Not till my time-tired spirit, freed from its thrall of clay,
Shall say to earth, good night! And when the morning dawns,
The morn that never grows to noon, nor wanes to night.—
And I shall wake to all the wondrous matchless light
Wake in the likeness of my Saviour—saved redeemed.
Then shall my longing, waiting soul be satisfied.
At last, all satisfied! Forever and forever satisfied!

A. B. Herring has withdrawn his candidacy for the office of county commissioner. He finds that his business is such that he cannot spare the time necessary for a personal canvass.

A Brilliant Wedding.

On Wednesday evening, the 14th inst. St. Paul's Church was the scene of a very pretty wedding, the parties being Mr. Russel E. Andreas, of Wilkes-Barre, and Miss Harriet Lott, eldest daughter of Mr. C. P. Sloan. The church was filled from chancel to entrance, every seat being taken, and many persons stauding in the aisles. The chancel was beautifully decorated with flowers, the tasteful work of the young lady friends of the bride. Shortly before the appointed hour the Rector, Rev. W. C. Leverett entered the chancel from the vestry room, and just as the town clock was striking nine the organist Geo. E. Elwell, took his seat at the organ and played the march from Lohengrin, when the wedding procession entered from the Parish House in the following order:

The ushers Frank H. and George L. Sloan, brothers of the bride; John Lorah and J. R. Davis of Wilkes-Barre. Then came Miss Emma Courtright, a little niece of the bridegroom, six years old, carrying a basket of daisies; Lois Sloan, cousin of the bride, and Hattie Courtright a niece of the bridegroom, followed carrying baskets of daisies; the bridesmaids, Miss Martha F. Clark, Miss Emma Andreas, of Wilkes-Barre, sister of the groom, and Miss R. Peckens of Plymouth; the Maid of Honor, Miss Lilla Sloan, sister of the bride. Then came the bride with her father. As the procession neared the chancel the bridegroom and his best man, W. J. Curran of Wilkes-Barre, entered the chancel from the vestry room, and met the bride at the chancel steps, where the betrothal portion of ceremony was performed. The rector then went inside the chancel rail and the bride and groom and best man and Maid of Honor, advanced to the rail, the flower girls and bridesmaids arranging themselves on either side, the ushers remaining at the foot of the steps. The ceremony was here concluded, and the procession retired from the church in reverse order, to the strains of Mendelssohn's Wedding March.

A reception was held at the residence of the bride's father on Market Street, which was attended by about 100 guests. During its progress the Bloomsburg Band gave them a serenade. Among those present from out of town were A. B. Chamberlin, Wells Chamberlin, J. C. Chamberlin, J. W. Chamberlin, Geo. L. Chamberlin and wife, Miss M. Andreas, Mrs. Courtright, Miss Randall, Mr. and Mrs. Wilcox, Mr. and Mrs. Aaron Andreas, all of Wilkes-Barre, F. H. Sloan, Baltimore, Miss Hester Kendig, Lancaster, Mrs. Speaker, Lewisburg, Mr. and Mrs. Geo. Keller, Mifflinville, Mr. and Mrs. E. D. Peckens, Plymouth, Morris R. Sloan, Scranton.

The bride was the recipient of a very large number of beautiful gifts in silver, china, cut glass, pictures, furniture, piano lamps, &c.

No wedding account is complete without a description of the dresses of the ladies of the bridal party. The bride wore a dress of white faille trimmed with lace, en train, with vail, and carried a bouquet of rose buds. The Maid of Honor wore a dress of yellow china silk and brocaded satin, and the brides-maids were attired in white organdie trimmed with lace and ribbon.

Amid a shower of rice and old shoes the newly married couple went to the Reading depot to take the north bound train at 11 o'clock but their destination was unknown. A delay in the train caused them to wait several hours at Rupert. They will reside at Wilkes-Barre. The wedding was a very pretty one, and every thing was perfectly arranged and passed off without a single hitch.

We extend our congratulations and best wishes.

Fred Ikeler Esq. delivered an address entitled "Agitators" on Wednesday the 14th inst., at the Commencement exercises of Central Pennsylvania College, New Berlin, Pa. The address was well received, and many compliments paid the speaker.

The following letters are held at the Bloomsburg, Pa., post office and will be sent to the dead letter office June 27, 1893.

Mrs. C. Bacon, Mr. Angelo Corrieri, Miss Maggie Donovan, Miss Harriet Folk, Miss Harriet Richart, D. W. Thomas.

Persons calling for these letters will please say they were advertised June 13, 1893. One cent will be charged on each letter advertised.

THE HALF HOLIDAY.

In many places Saturday afternoons are made a half holiday, and all business places close at one o'clock during the summer months. It is a good movement, if everybody will adopt it. Why not do it in Bloomsburg?

APPROVED BY THE GOVERNOR.

The Official Signature Attached to a Number of Bills.

HARRISBURG, June 12.—The governor late Saturday afternoon approved the supplement to the Baker ballot law, the state dental examiners' bill, the Philadelphia House bill, the bill authorizing capitalization of corporations not exceeding $30,000,000, and the bill to prevent incorporation of boom companies on streams not more than thirty-five miles long.

The governor disapproved six bills. One of these proposed to prohibit the peddling, selling or hawking merchandise or other goods in the state without a license, and in vetoing it the governor says he regards it as "a most vexatious and oppressive interference with the free operations of legitimate business," and as "a most unwise and unjust discrimination against the citizens, manufacturers and merchants of our own state."

Another bill was intended to prevent the peddling, selling or hawking of product and merchandise in cities of the second and third classes without license.

The governor also vetoed the bill enlarging the duties and powers of the fire marshal of Allegheny county.

The bill to authorize cities to make appropriations for the establishment and maintainance of free libraries and to acquire, by condemnation, eligible sites for their location was vetoed.

The governor also vetoed the act making an appropriation to the State Agricultural Society.

Another bill vetoed by the governor provided an appropriation to aid the several counties in the construction, improvement and maintenance of public roads and provided the manner of distribution thereof.

HARRISBURG, June 9.—Governor Pattison last night turned his attention to the work of the legislature and with the assistance of Secretary of the Commonwealth Harrity and Private Secretary Tate disposed of a large number of bills. The measure authorizing the superintendent of public instruction to place in every public school of the state containing a school library one copy of Small's Hand Book and increasing the compensation from $500 to $1,000 for a more thorough revision of the work does not meet the governor's sanction, and he has vetoed it. He says, for reasons which he has already explained, he regards all these efforts to make the commonwealth a distributor of such works ill considered.

HARRISBURG, June 12.—Governor Pattison heard argument in the application for a requisition for the officers of the General Electric Company, of New York, who were indicted in the Pittsburg courts for conspiracy against the Westinghouse Electric Company. John Dalzell, for the Westinghouse, showed that Messrs. Clark and Hamilton, two of the indicted parties, were in this state at the time of the alleged offense, and John R. Read insisted that a requisition could only be issued for those two, as the others indicted were in New York and Boston. Mr. Dalzell agreed to this and the requisition will be issued only for Clark and Hamilton.

HARRISBURG, June 13.—The Maritime Publishing Company, of Philadelphia, capital $10,000, and the Oakland Water Company, of Philadelphia, capital $1,000, The Empire Dime Building and Loan Association, Pittsburg, capital $1,000,000, New Kensington Manufacturing Company, New Kensington, Westmoreland county, capital $8,000, Mitchell Manufacturing Company, Pittsburg, capital $1,000, Pittsburg Architectural Iron Works, Pittsburg, capital $150,000, were chartered yesterday.

HARRISBURG, June 10.—Drs. Eli Coover, Hamilton and Gorgas, well known physicians of this city, have been sued for $50,000 damages by Antonia Derosa, an Italian restaurantier. The plaintiff's wife had submitted to an operation, which it is alleged, had at its termination proved unnecessary, and the victim is ruined for life as a consequence. The medical fraternity are much interested in the case.

HARRISBURG, June 11.—Governor Pattison approved the bill increasing the salaries of the lieutenant governor, chief clerk and corporation clerks in the auditor general's department, chief clerk and corporation clerk in the state department and chief clerk in the attorney general's department. Several other bills were approved.

They Tore Up the Track.

LANCASTER, June 13.—An exciting railway war is in progress at Mountville. The Lancaster and Columbia Electric Railway Company laid its tracks over the railroad bridge without the permission of the Pennsylvania Railroad Company, and yesterday a gang of workmen of the latter company tore up the rails. The electric railway people at once had them re-laid, when the railroad authorities got reinforcements and again tore them up. During the excitement numerous fights occurred between the opposing workmen, but no one was seriously injured.

Found the Body in the Woods.

ASHLAND, June 13.—The dead body of 9-year-old George Kiehl was found in the woods near here, with a bullet hole in the breast and a revolver lying near by. He and a companion named Bobbins had left home on Saturday and not returning a searching party found the boy after a hunt of twenty-four hours. His companion denies all knowledge of the shooting. The coroner is investigating.

To Build a New Reservoir.

POTTSVILLE, June 13.—The Pottsville Water Company is inviting proposals for the re-building of their large reservoir, which sprung a leak last June, and the several days threatened to sweep away the towns of St. Clair, Port Carbon, Schuylkill Haven and part of Pottsville. The dam has a capacity of 800,000,000 gallons, and is one of the largest in the state.

Auburn Dies of Lockjaw.

MEDIA, June 12.—Samuel Johnson, brother of Councilman Charles B. Johnson, of Media, died at his home at Malvern of lockjaw, the result of running a catfish bone into his hand. His hand became swollen in a short time and symptoms of lockjaw set in.

Fatally Stabbed in a Quarrel.

ALTOONA, June 13.—David Peck was fatally stabbed by an unknown man with whom he quarreled. In the general fight Owen Williams was also stabbed four times, but he will recover.

Returned to Work.

WARREN, Ind., June 12.—The Standard oil strike was declared off Saturday. Four hundred workmen resumed work to-day with a nine-hour day. All parties are satisfied.

A Dock Hand Fatally Injured.

MINEVILLE, June 12.—John Lee, a dock hand employed on the sloop Gratitude, of Mauch Chunk, fell from the mast head to the deck, receiving fatal injuries.

THE LIZZIE BORDAN TRIAL.

Evidence Seemingly in Favor of the Defendant Thus Far.

NEW BEDFORD, Mass., June 14.—Interest in the trial of Lizzie Borden for the murder of her father and mother at Fall River, this state, on the 4th of August last, increases in interest as the time passes.

The court room is packed continually and the greater portion of those in attendance are women.

If the commonwealth of Massachusetts, which the crier of the court here calls upon the Almighty to save at the opening and closing of the session each day, does not present any stronger evidence as to why Lizzie Borden should be convicted of having hastened her step-mother and father to death, she will never be convicted of the awful crime of which she stands charged in the indictment. That fact has become so apparent that some of the lawyers (one of them came all the way from Georgia to attend the trial) who have been present from the first have gone home, thoroughly convinced that the jury will acquit the young woman now on trial for her life.

What the prosecution can have in reserve with which to convince the jury of the guilt of Miss Borden, if it has anything at all, is a subject of speculation. The evidence taken at the inquest, which furnished the prosecution with wedges which could have been used to advantage when she went on the stand, having been excluded, the prosecution will have to get along with it as best it may.

THE DISASTER AT WASHINGTON.

Twenty-one Dead Seems to Cover the List of Fatalities.

WASHINGTON, June 12.—It is now clearly ascertained that the number of deaths resulting from the accident at Ford's old theatre is twenty-one, although it is believed that several of the seventy-five injured will die.

Until late last night workmen had been employed in removing the tons of loose bricks and broken timbers from the building, and this morning the gold bulk looked less hideous than when the scores of dead and broken bodies were yesterday being carried from it.

By 8 o'clock, an hour earlier than usual, the clerks began to arrive at the building, and every newcomer was greeted with effusive welcomes by his comrades. And then they told tales of marvelous escapes, and each was again and again questioned as to where he was at the awful moment. Tears filled many eyes as each told of his experiences, and how he had seen one whom they all knew and loved dashed down to death. Many of the clerks, with a view to not losing any time, knocked on the doors of the annex building adjoining the ruined theatre and to the officials within reported for duty. But no suitable building has yet been secured and it will probably be some days before the force is again put to work.

The cause of the accident is said to be due to criminal negligence on the part of the government.

Among the dead are George C. Allen and Samuel P. Bates, of Pennsylvania.

Outraged by a Negro Brute.

WEST CHESTER, June 14.—A colored man outraged a 9-year old daughter of Lewis Eppelmier, at Birmingham, while the family was away. The fiend was arrested and lodged in jail. This is the second outrage of the kind which has been committed in Chester county within a week, and great indignation is expressed.

Paint Works Burned at Matthewson.

READING, June 13.—The Pennsylvania paint and oching works at Matthewson, this county, were burned yesterday together with the contents. The loss on buildings and stock is placed at about $80,000; insurance, $17,000. The origin is unknown. The works employed thirty-five men and did a large business.

Jumped From a Second-Story Window.

PHILADELPHIA, June 12.—In a fit of temporary insanity John Mulligan, a resident of Unruh street, Tacony, jumped from the second story of his house, landing in the yard below in a heap and badly bruised. He was taken to the Episcopal hospital.

Another Bank Suspends.

SAVANNAH, Ga., June 12.—Hobbs & Tucker, private bankers of Albany, have suspended payment. Mr. Hobbs says payment will be resumed in a few days. The failure is due to too heavy loans and an inability to realize on collaterals.

DO TRIED TO SELL THE HORSES.

A Reading Liveryman Comes Near Losing a Valuable Team.

READING, June 14.—Monday evening a man who gave his name as John Schaeffer called upon Alfred Glase, liveryman, and represented that John Harbster, of the Reading Hardware Company, wanted a double team to go to Fredericksburg at 4 o'clock yesterday morning. Mr. Glase gave instructions to one of his men to the effect that Mr. Harbster should have the best team in his stable. At the hour stated Schaeffer called at the stable and said he would take the team to Mr. Harbster's residence.

He was given the team, but instead of taking it to Mr. Harbster's drove to Pottstown, where, it is alleged, he offered it for sale to a liveryman for $150. The latter, suspecting something wrong, notified Chief Cullen, who at once informed Mr. Glase. A warrant was sworn out before Alderman Schrader for the arrest of Schaeffer, and Constable Wagner left for Pottstown yesterday afternoon. Mr. Glase also accompanied the constable, and brought the team home late last evening.

The Defendant Made a Bad Mistake.

NORRISTOWN, June 9.—During the session of criminal court here the defendant in a larceny case plead guilty without waiting for the formalities of an indictment by the grand jury. Shortly afterwards the grand jury, ignorant of the action in the case, ignored the bill of indictment, and the culprit would have been discharged. Afterwards, learning of the situation, they concluded that they had not given justice a fair show. They reconsidered the bill and indicted the accused, who, evidently guilty, had taken it for granted that the grand jury would find a true bill.

Sentenced to Prison.

NORRISTOWN, June 10.—Judge Swartz yesterday sentenced the following persons convicted during the week in the Eastern penitentiary: Charles Rutland, of Port Kennedy, aggravated assault and battery on William Kaufman, two years and nine months; John Travis, larceny, one year and three months; Peter Conner, larceny of brass journals along a railroad, three years; Angelo Desimoni, same offense, two years; Samuel Cogan, receiving stolen goods, two years and six months; Charles Whipple, receiving stolen goods, two years.

Miller Goes to Prison for One Year.

PHILADELPHIA, June 10.—Thomas W. Miller, the police officer who pleaded guilty on Monday last to the larceny of a $60 watch from the Aldine hotel while on duty there during the recent fire, was yesterday brought up before Judge Bregy for sentence. Attorney Leigler made another appeal for mercy in behalf of the prisoner, who had previously borne an exceptionally good character and had a wife and family dependent on him for support. Miller was sentenced to one year in the county prison.

Seven Barns Were Burned.

YORK, June 10.—A destructive fire broke out in this city in the barn of E. J. Kraber and seven barns were consumed. They were the property of William Eyster, E. J. Kraber, Mrs. Shettler, George Mund, T. A. Stein and Dr. A. A. Stough. The contents of the buildings were destroyed, including wagons, buggies, agricultural implements, hay, feed and straw. The total loss will probably reach $4,000. The dwellings of T. W. Graff and C. E. Davis were badly damaged.

Hall Warmly Welcomed.

ST. MARY'S, June 14.—Senator Hall, the newly appointed United States attorney for Western Pennsylvania, was welcomed on his return home by a public demonstration. Bands played and cannons were fired. The senator was escorted to his home, where he made a speech accepting his appointment entirely on his unwavering support of democratic principles. The town is decorated and the people wildly enthusiastic over the appointment.

His Head Was Severed.

WILMINGTON, Del., June 14.—The body of an unknown man was found lying along the tracks of the Philadelphia, Wilmington and Baltimore railroad in this city yesterday. The man's head was completely severed from the body. Forty feet away another man was found unconscious. This man proved to be Harry McCardell, of Lancaster, Pa. He was not fatally hurt.

"Peeping Tom" May Strike a Snag.

NEW BRUNSWICK, N. J., June 10.—For several nights residents of the Sixth ward have been annoyed by a "Peeping Tom" who sneaks into back yards after dark to look into windows. He was discovered peeping into the window of a young lady on Central avenue. Her brother chased him away and all the men in that part of the town are anxious to capture him.

Trouble is Looked For.

WASHINGTON, June 14.—The officials of the war department protest that the general increase of industry from at Chicago has nothing to do with the opening of the World's Fair, but notwithstanding this denial there is reason to believe that serious trouble is anticipated if the attempt is made to carry out the construction of law given by the United States court.

Rosario Camacho's Funeral.

READING, June 14.—The remains of Rosario Camacho who met his death by drowning while bathing in the Schuylkill river near the Schuylkill avenue bridge, were interred in the Catholic cemetery yesterday. GOOD SOUND SENSE.

Paragraphs That Ought to Be Read by All Mothers of Daughters.

In Dr. Louise Fiske Bryson's paper on "Education in the Treatment of Nervous Girls," occurs this timely admonition: Instruction should begin in childhood in the art of dressing well, according to the strictest conventionality. Theoretic dressing is dangerous at all times, especially for those who have weak nerves. Fantastic or unusual combinations should be frowned down at once. Whatever makes nervous girls appear different from others in their own eyes, more artistic, picturesque or ideal, more elevated in thought because they despise, or effect to despise, fashion and the ways of ordinary human beings, should be gently but firmly set aside. While it is only right and proper to allow girls of every description freedom of choice in regard to personal ornament, within certain fixed limits, anything approaching a 'costume' is to be deprecated for children and young women of unstable, nervous systems, as it attracts attention and deepens self-consciousness, the very thing to be avoided.

"Self-possession and forgetfulness of our own personality are more a matter of conventional clothes than at first appears. The sensitive, easily-disturbed child has one source of irritation removed by the knowledge that its garments are correct in style, cut, fit and color, and that it looks like all the rest of the conventional world, and is, therefore, one expression of good form. Then whatever nerve force she has can be used in development and growth, and not in futile attempts at philosophy, in the vain endeavor to make imperfect dressing endurable."

The Languages of the World.

Some interesting statistics have been compiled by a Frenchman respecting the different languages spoken in various parts of the world. He states that the language in which Shakspeare and Milton wrote was then that of less than six million human beings. French was the mother tongue of at least thirty million people at a time when English was spoken by less than sixteen million, and fifty million of French-speaking people were living when the Revolution broke out in 1848.

Between forty and fifty years the English language equalled the German in the number of those who spoke it, and now the latter are left far behind. German is now spoken by ten million persons in the Austro-Hungarian empire, by forty-six million in the German empire, by four million in Belgium, and by about two million in Switzerland. German is also spoken by about two million persons in the United States and Canada, giving a total of about sixty millions who use the German language.

French is spoken by the thirty-eight million inhabitants of France, by two million five hundred thousand people in Belgium, by two hundred thousand in Alsace-Lorraine, by six hundred thousand in Switzerland, by one million five hundred thousand in the United States and Canada, by six hundred thousand in Hayti, and by one million five hundred thousand in Algiers, India, the West Indies and Africa, in all about forty-five millions.

English is spoken by thirty-seven million persons in the British Isles, by probably fifty-seven million of the sixty million inhabitants of the United States, by four million persons in Canada, by three million in Australia, by three million seven hundred thousand West Indians, and by one million in India and other British colonies, bringing the total of the English-speaking race to over one hundred million.

She Hit It.

The pretty school teacher, for a little divertisement, had asked her class for the best original definition of "wife," and the boy in the corner promptly responded:

"A rib."

She looked at him reproachfully, and nodded to the boy with dreamy eyes, who seemed anxious to say something.

"Man's guiding star and guardian angel," he said, in response to the nod.

"A helpmeet," put in a little flaxen-haired girl.

"One who soothes man in adversity," suggested a demure little girl.

"And spends his money when he's flush," added the incorrigible boy in the corner.

There was a lull, and the pretty, dark-haired girl said slowly:

"A wife is the envy of spinsters."

"One who makes a man hustle," was the next suggestion.

"And keeps him from making a fool of himself," put in another girl.

"Some one for a man to find fault with when things go wrong," said a sorrowful little maiden.

"Stop right there," said the pretty school teacher. "That's the best definition."

A Man Behind Him.

He was going home to his wife and family. It was growing dark. His road from the station was a lonely one, and he was getting along as fast as he could, when he suddenly suspected that a man behind him was following him purposely. The faster he went, the faster the man went, until they came to a churchyard. "Now," he said to himself, "I'll find out if he's after me," and he entered the churchyard. The man followed him. Vague visions of revolvers and garroters grew upon him. He made a detour of a splendid mausoleum. Still the man was after him, round and round. At last he turned and faced the fellow, and asked, "What the dickens do you want? What are you following me for?"

"Well, sir, do you always go home like this? I am going up to Mr. Fitzbrown's house with a parcel, and the porter at the station told me that if I'd follow you I should find the place, as you live next door. Are you going home at all tonight?"

—Wood for tennis racquets requires at least five years' seasoning—that is to say, it requires to be kept five years in the rough timber state before cutting up for use. Wood for pianos is kept, as a rule, for forty years before it is considered sufficiently in condition to be used.

—John Railey, a Tennessee farmer in hard luck, has just been made happy by the receipt of $655 from Frank K. Walldran, of Reading, Pa., being in full payment with 6 per cent. interest for a horse which Walldran, then a soldier, appropriated from Riley's stable in 1864.

—An Englishman has secured an American patent on a device which he calls a manual gymnasium for musicians. A strip of leather attached above the elbow runs to a series of springs connected with each finger and thumb of the hand. The arrangement allows the gymnast to gain strength and agility by working the fingers.

—Bauxite, or aluminum ore, seems to have been first discovered in Pike county, Georgia, in 1887, although the exact locality is unknown. In 1889 a chemist at Fort Wayne, Ind., analyzed a piece of rock sent from the Dykes limonite banks, Cherokee county, Alabama, and found it to be bauxite containing 30 per cent. of aluminum.

—Mr. Gladstone's last great speech did not appear to fatigue him unduly. During the whole of the exhaustive summing up he only once took a little stimulant, and then rather to clear his voice than to counteract any flagging of the physical powers. While speaking he wore a rose in the buttonhole of his broadcloth frock coat, and seemed to have given unusual attention to his attire.

—Fish nets are made from some very strange materials. The Esquimaux manufactures them from strips of seal hide and from thin slices of whalebone. By the Fijians they are constructed of human hair. Savages in various parts of the world plait the inner fiber of tree bark for fishing lines, and the Indians on the Pacific coast of North America use for the same purpose sea weed—a sort of kelp which is strong enough to hold a finny captive of 150 pounds weight.

—Congress passed an act July 22, 1862, which required that every member of congress should make oath that he had not "voluntarily borne arms against the United States since he had been a citizen thereof," or "voluntarily given aid, countenance, counsel or encouragement to persons engaged in hostility thereto," and had never "yielded voluntary support to any pretended government, authority, power or constitution within the United States hostile or inimical thereto."

—Up to about thirty years ago the most familiar appellation for one's maternal relative was "Ma." That generation still use the same title. It sometimes creeps into print under their auspices. Two late novels bristle with it, and it is a far cry from the "Dearest" of Fauntleroy to the "Ma" of Mrs. Burnett's earlier stories. "Mama" came in just before the war. It has been so universally adopted, and by such curious people, that a reaction from it has set in during the past decade. "Mamma" made a strenuous struggle, but it has always seemed rather foreign in its tone and difficult to acclimate. Now "Mother" is beginning to show signs of vigorous life, and may be depended upon for eventual adoption. It is peculiar enough to watch the progress of a fight against and the final surrender to one of the most beautiful words in the language.

—A new infantry uniform has been adopted in France and served out to all branches of the service except the reserves. The color of the tunic is dark blue for all regiments except the Tirailleurs, who are to have a tunic of sky blue. The epaulet is a noticeable feature of the uniform. The sub-lieutenant will wear the epaulet on the right shoulder and the contre-epaulet on the left, while the lieutenant will wear them in reverse order. Officers above the rank of lieutenant will wear two epaulets, differing in material according to rank. The lieutenant-colonel's will be of gold and silver, and the colonel's of gold only. Band-masters and non-commissioned officers will wear epaulets similar to the sub-lieutenant except that red silk strands will be inserted in the material.

Giving His Sister Away.

Alfred—Say, sis, did Mr. Cumoftin bring my umbrella back?

Angelina—Why, Mr. Cumoftin did not have your umbrella, Alfred. What made you think that?

Alfred—Why, I heard him say last night that he would just steal one more, and I didn't see my umbrella today.—Judge.

Going to the World's Fair?

NOW IS THE TIME, AND THE READING'S "SCENIC ROUTE" THE WAY.

Stories of Chicagoan rapacity, added to the admitted incompleteness of many of the exhibits, detracted greatly from the success of the World's Fair during its initial month, and the attendance, while enormous, fell far short of anticipations. Now, however no one need be deterred from visiting the Exposition by fears of extortion, or by misgivings as to seeing the great show in its entirety. The Chicagonese have regained their senses, and reasonable prices again prevail. The buildings are finished, the exhibits all in place, and the wonderful aggregation of the world's greatest achievements can be see to vastly better advantage just at present than at a later period when the rush shall have set in.

A favorite route to Chicago from the Eastern and Middle States is over the "Scenic Lehigh Valley" Division of the Reading Railroad System, by way of Niagara Falls or Buffalo. This line traverses a region exceedingly rich in picturesque scenery. Indeed, it may be questioned whether in all America a journey of the same extent will afford to the lover of the beautiful so many and so diverse and charming views of Nature in her loveliest forms.

The traveller from East to West by the "Scenic Lehigh Valley Route" passes through the sublimely beautiful scenery of the Lehigh Valley, past Mauch Chunk, the "Switzerland of Ametica," into and over vast ranges of sky-towering mountains, through the song famed and romantic Vale of Wyoming, the smiling Susquehanna Valley, and on through the famous lake region of New York State to Buffalo or Niagara Falls, whence any one of several diverging lines will convey him to the World's Fair City on Lake Michigan. Aside from the scenic beauties of the Reading—Lehigh Valley route, the line is perfect in construction and equipment, the trains being composed of magnificent coaches and parlor and sleeping cars and supplied with all conveniences and every approved appliance for safety and comfort.

From New York and from Philadelphia, with connections from every direction of numerous junction points, Pullman parlor and sleeping cars are run through, without change to Chicago, those going by way of Niagara Falls, passing through Canada over the Grand Trunk and Chicago & Grand Trunk Railways, while the cars going via Buffalo reach Chicago over the Nickel Plate Line.

Passengers taking the Reading Route have the choice of a number of lines in addition to these, either going or returning. The fares offered by the Reading are as low as by any other route—indeed, in most instances, they are lower. There are now four through trains, in either direction, every day, and full details respecting routes, rates and trains can be had at Reading Railroad ticket offices.

The Why and Wherefore.

There is nothing marvelous in the fact that Hood's Sarsaparilla should cure so many diseases. When you remember that a majority of the disorders "flesh is heir to" are due to impure or poisonous condition of the blood, and that Hoods Sarsaparilla is an effective and radical blood purifier, the whole thing is explained.

Besides its blood purifying qualities, Hood's Sarsaparilla also contains the best known vegetable stomach tonics, diuretics kidney remedies and liver invigorants, and is thus an excellent specific for all disorders of these organs, as well as for low condition of the system, or That Tired Feeling.

Most Americans will be surprised to learn that all the Chinamen in the United States came from one of the eighteen provinces of the celestial empire—most of them from one corner of that province. In an article in *Harper's Weekly* for June 10, Rev. Dr. Frederick J. Masters, who was for nine years a missionary in Canton, and for eight subsequent years superintendent of the Chinese Missions in California, describes these people in their homes, and compares them with the Chinamen of other provinces.

Happy days and restful nights result from using Ayer's Sarsaparilla. It so regulates all the bodily functions and strengthens the nervous system that worry and fatigue are comparatively unknown and life is truly enjoyed. It is certainly a most wonderful medicine.

An American, Mr. Henry, in Louguyon France, has constructed a clock entirely of paper, which has run regularly for two years, with no greater variation than a minute a month.

Ask for Ayer's Sarsaparilla, and do not take any other. Sold by all druggists.

Persons whose temples are fuller above the eyes than below, whose heads enlarge above the ears, are usually more gifted with musical taste than those with contrary characteristics.

Our Mother-Tongue.

If we reverence it as we ought we will be on our guard not to insult it by violating its rules. We will not say, "You hadn't ought to do this," or, "He ain't a-goin' to do that." We will avoid that last and worst error of the vulgar, the double negative. We will be above misplacing moods and tenses, and putting the nominative case where the objective be ongs by right.

Many people who ordinarily speak their mother-tongue correctly are at fault when they have to do with pronouns. Pronouns are stumbling-blocks beyond all other parts of speech. "A person does not know what to do with *their* hands," they say, or, "One does not give *their* best things away for nothing." If speaking of two persons, you will hear that "Ruby has invited John and I to supper," or, "Lawrence is going to Chicago with Mildred and I." The placing of another name before the conjunction blinds them to the awkwardness of setting I in the objective case.

The word "nice" is frequently misused, and taken from it significance of neat, delicate, dainty, to stand for agreeable, charming, or virtuous. Thus a girl was talking to another of that decidedly objectionable member of society, a burglar, and alluding to one in particular, a man undergoing a sentence of imprisonment, said, with emphasis, "I don't think he was a nice young man." A "nice" girl, by-the-way, often does duty in describing a young woman, who, whatever else she may be, is more than *nice* if she is gentle, good, winsome, and well-bred, and whose niceness ought to be taken for granted.

"Lovely," in the same way, is applied equally to a favorite pudding or a beloved relative. "First rate" serves as a qualifying adjective when scenery, fine clothes, a pleasant time, or, oh! worst and saddest of misnomers, the "natural" appearance of a corpse are the topics which the speaker has in mind.—*Harper's Bazar.*

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced itincurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address,

Why? Why is Strictly Pure White Lead the best paint? Because it will outlast all other paints, give a handsomer finish, better protection to the wood, and the first cost will be less.

If Barytes and other adulterants of white lead are "just as good" as Strictly Pure White Lead, why are all the adulterated white leads always branded Pure, or

"Strictly Pure White Lead?"

This Barytes is a heavy white powder (ground stone), having the appearance of white lead, worthless as a paint, costing only about a cent a pound, and is only used to cheapen the mixture. What shoddy is to cloth, Barytes is to paint. Be careful to use only an old and standard brand of white lead—the

FRIDAY, JUNE 16, 1893.

The old Ford Theatre in Washington, where President Lincoln was assassinated in April 1865, collapsed without a moment's warning last Friday, killing twenty one people, and injuring many more. It was purchased by the government soon after the death of Lincoln, and was used for government offices, and all the killed and injured were clerks. The building was declared unsafe for use as long ago as 1885, but continued to be occupied. The accident occurred on the day that the funeral of Edwin Booth was held, whose life was darkened by the crime of his brother, John Wilkes Booth. It is supposed that the fall of the building was occasioned by the undermining of the walls by workmen who were setting up an electric light plant in the cellar.

The friends of Ex-Senator McAteer, of Huntingdon county, are making a gallent fight for him for the position of Naval Officer at Philadelphia, says the Bellefonte *democratic Watchman*. For this position some half a dozen or more candidates have been presented, all doubtless good men and possibly deserving, but among the whole list we know of none whose success would be more gratifying to the people generally, particularly of that section, than that of Mr. McAteer, adds the *Watchman*. He has filled a number of important positions, and has filled them well. He is at present a trustee of the Huntingdon Reformatory and a member of the World's Fair committee from this State.

Governor Pattison vetoed six bills last Saturday. One of these proposed to prohibit the peddling, selling or hawking merchandise or other goods in the state without a license, and in vetoing it the governor says he regards it as "a most vexatious and oppressive interference with the free operations of legitimate business," and as "a most unwise and unjust discrimination against the citizens, manufactures and merchants of our own state."

Another bill was intended to prevent the peddling, selling or hawking of product and merchandise in cities of the second and third classes without license. The governor gives these reasons for the disapproval of the bill: "No justification whatever exists for legislation of this special and particular character. If there is any reason why the hawking or peddling of teas and spices without license is contrary to public policy, the same reasons must prevail for restrictions upon the like sales of hundreds of other articles in cities of all classes, and there is no warrant for such classification and special discrimination."

The governor also vetoed the bill enlarging the duties and powers of the fire marshal of Allegheny county for the reasons that the act is local and special, and it also offends against article three section eight of the constitution, which provides that no bill except general appropriation bills shall be passed containing more than one subject, which shall be clearly expressed in the title.

The bill to authorize cities to make appropriations for the establisement and maintenance of free libraries and to acquire, by condemnation, eligible sites for their location was vetoed.

The governor also vetoed the act making an appropriation to the State agricultural society. In disapproving it, he says: "This bill proposes to make an appropriation of $30,000 to the Pennsylvania state agricultural society, a private association not under the control of the commonwealth and organized for profit." After quoting a veto message of Governor Beaver of a bill involving the same principle, the governor says: "This statement of the case is in accordance with views frequently expressed in regard to similar appropriations by the present executive during this and his former term. They need not be enlarged nor repeated. I regard all such appropriations as at variance with the letter and spirit of the constitution, and feel constrained to veto them regardless of the general worthiness of their objects and my sympathies with the purposes they are intended to serve."

Another bill vetoed provided an appropriation to aid the several counties in the construction, improvement and maintenance of public roads and provided the manner of distribution thereof. These reasons are given for the governor's action: "The present condition of the revenues of the commonwealth and the increase in the appropriations for public schools render it doubtful whether the condition of the state's finances would warrant this unusual expenditure for public roads; but even if it should be certain that the money could be spared from the public treasury, it is well known that this appropriation was based upon and intended to meet the requirements of other proposed road legislation, which failed of enactment, and, therefore, this bill is not required."

In approving the bill for the incorporation of drainage companies, the governor makes the following statement: "I have given my approval to this bill notwithstanding certain clumsiness and carelessness on the part of the transcribing clerks, by which, in the copy presented for my signature, certain paragraphs in the re enacting clauses have been unnecessarily repeated."

He then goes on to say: "The condition of this and some other bills submitted to me with like defects affords additional grounds for condemnation of the usual procedure of passing bills with undue haste and recklessness during the closing days of the session."

The governor approved senate bill to provide for the quieting of titles to land, and in doing so took occasion again to refer to the blunders of the transcribing clerks.

A New Pension Order.

REGULATING THE FIXING OF RATES UNDER THE ACT OF JUNE 27th, 1890.

Judge Lochren, Commissioner of Pensions, with the approval of Secretary Hoke Smith, has issued the following important order as to adjudicating and fixing rates of pension under the act of June 27, 1890:—

"1—A claim for pension under the second section of the act of June 27, 1890, can only be allowed upon proof of mental or physical disability of a permanent character, not the result of the claimants own vicious habits, incapacitating him from the performance of manual labor in such a degree as to render him unable to earn a support.

"3—Proof that the disability is not the result of the claimant's own vicious habits is requisite, and therefore the causes and circumstances of the origin of the disability should be shown by the evidence furnished in support for the claim for a pension, so far as can be done, and by persons other than the claimant.

"4—To give the claimant a pensionable status under this act, the disability be such as incapacitates him from the performance of manual labor in such a degree as to render him unable to earn a support; yet the act recognizes differences in the degrees of such pensionable disability, giving $12 per month in case of the greatest, and $6 per month in case of the lowest degree of such pensionable disability rendering the claimant unable to earn a support by manual labor. It also provides for intermediate ratings, proportioned to the intermediate degrees of such pensionable disability. The proper ratings under this act will therefore, be made in accordance with such rules for rating as the medical referee shall prescribe, subject to the approval of the Commissioner.

WASHINGTON LETTER

WASHINGTON, June, 11 1893.

If the Congress of the United States were liable to criminal indictment it would have to stand trial on the charge of murder in the first degree for having killed the 22 employes of the Surgeon General's office who lost their lives by the falling of the floors of Ford's old theatre, where Lincoln was assassinated, which occurred last Friday, a catastrophe which can never be forgotten by any who were at the time in Washington, and which still is the leading topic of conversation wherever one goes. In addition to the 22 men killed outright there were 68 injured, a number of whom may die, and many of whom will be permanently crippled. Congress cannot claim in extenuation that it did not know the condition of this building, because its condition has been repeatedly called to its attention, and it actually appropriated money some six or eight years ago to erect a new building to contain the Army Medical Museum and library which had been in this building. Just think for a moment what damning evidence is given by this action. Congress erects another building because this isn't safe enough for the museum and library with their comparatively few attendants to remain in, and then allows 500 clerks to be crowded into the unsafe building. Had a private employer been guilty of this crime he could have been legally executed for murder; but Congress — well, the families of the dead and crippled, who are now being aided by private contributions, can spend the remainder of their lives in asking Congress to recompense them for their lost breadwinners. Meanwhile there are half a dozen buildings in Washington containing many times the number of Government employes who were in the collapsed building that are known to be equally dangerous, among them the Government Printing Office, with its nearly 3,000 employes; the Patent Office, the annex to the Post Office department and the Winder building, where a large branch of the War department is quartered.

An attempt is being made by an army court of inquiry to locate the personal responsibility for the disaster at this old death trap, if there be any, and a coroner's jury is at work with the same end in view. It is said that the direct cause of the accident was an excavation which was being made for the purpose of putting in new boilers. This may be true, but even if it is that furnishes no excuse for Congress for having allowed a building which was officially condemned twenty seven years ago to be occupied by 500 Government employes. In consequence of the accident there is a feeling of excitement among those employed in the other buildings that are known to be unsafe. Secretary Smith is trying to allay this excitement in the Patent Office by having all the heavy stuff stored on the upper floors of that building transferred to the ground floor.

President Cleveland was one of the first contributors to the fund that is being raised for the help of the families of the clerks that were killed and wounded; he also directed that all flags on the public buildings be half masted for the dead clerks, an honor never before paid to any except high officials or ex officials.

The number of appointments during the past week was unusually large, particularly in the consular service, but the new Government printer has not been named, although it is daily expected that he will be.

There are indications that Secretary Carlisle has in view a complete reorganization of the immense clerical force of the Treasury department. He has addressed a circular letter to all of the heads of bureaus directing them to prepare and send to him not later than the 25th inst, a list of all employes under them, showing age, number of years employed, those who entered the service under the civil service law of 1883; those who have wives, husbands, brothers, sisters, sons, daughters or other relatives employed in any branch of the Government; those employed as clerks or otherwise, with compensation exceeding $840 a year, who are doing work that properly belongs to messengers, assistant messengers, and laborers; and those who are doing clerical work but are on the rolls as messengers, assistant messengers or laborers. This has raised a commotion in the department, and no wonder, for the information, if correctly given, and there is no doubt about that, is bound to lead to a grand shake-up and a large number of dismissals. In taking this step Sec. Carlisle has set another good example for the heads of all the other departments. A grand shake-up all round will be beneficial to the country as well as to the democratic party.

In view of what Hood's Sarsaparilla has done for others, is it not reasonable to believe that it will also be of benefit to you?

Hood's Praises Itself

Kidney Troubles — Bright's Disease Cured

Now Able to Work and Sound as a Dollar.

Mr. John Saxton
Of Scottdale, Pa.

"I do think Hood's Sarsaparilla is 'worth its weight in gold.' For four years I suffered misery with terrible pains in my back and trouble with my kidneys. The doctors thought I had Bright's disease. Many a time I had to give up work, and continually grew worse, and when I sat or stooped down I had to be helped up. At last had to give up and go to bed and remain six long weeks. It was then I began to take Hood's Sarsaparilla, and I soon found that it was helping me although I had been told nothing would help me and thought

I Would Have to Die.

But I continued to improve till I am now in perfect health and have as good a back as any man in town. Today I can do a good day's work, and truly feel that Hood's Sarsaparilla was a God-send to me. I am as sound as the best dollar that was ever made, and I want this statement put into print so that everybody can see what good it did me. Every word of the above can be proved by a score of people here who know how I suffered and how I have been cured. I took but six bottles. I think no one can praise Hood's Sarsaparilla as much as it will praise itself." JOHN SAXTON, Scottdale, Westmoreland Co., Pennsylvania.

Pennsylvania People Benefitted.

MRS. CARRIE BOUTON GAINED IN FLESH 68 LBS. TO 121 1-2 LBS. BY THE USE OF A SIMPLE REMEDY.

MEN AND WOMEN INTERESTED.

"It is astonishing," said one of our physicians the other evening, "how many of the ordinary diseases people suffer from come from the one cause —excess of uric acid in the blood. To discover a medicine that would dissolve this acid has puzzled thousands of the best men of the medical profession, until Dr. David Kennedy, of Rondout, N. Y., produced what is known the world over as Dr. Kennedy's Favorite Remedy. The great value we place in Favorite Remedy comes from the fact that it is the only medicine that will effectually dissolve this acid thus curing rheumatism, dyspepsia, kidney, liver and urinary troubles and the sicknesses women suffer from. These and many more troubles all come from the one cause, as I said before, this death-dealing uric acid."

Perhaps there has been no one person in Wyoming Co., Pa., that has suffered more than Mrs. Carrie Bouton, formerly of Schottville, but now of Harvey's Lake, Luzerne Co. Mrs. Bouton, in relating her restoration to health, said: "From a growing girl I suffered from female trouble or weakness peculiar to my sex. Several physicians prescribed for me but I found no relief. I was reduced in flesh down to 68 pounds. By accident I heard of Dr. Kennedy's Favorite Remedy and determined to try it, and to my great joy I began to realize that I had found a medicine that was doing me good. I think I had used five bottles when I found that I weighed 121½ pounds and was better in health than I ever was before.

Inquiry among Mrs. Bouton's neighbors shows that she states nothing but the facts in regard to her case. Many other instances of the kind are widely talked of in Scottsville, Tunkhannock, Wilkesbarre and other places where Dr. Kennedy's Favorite Remedy has effected many cures after physicians had given up hope.

"But," says one of our prominent druggists, 'Favorite Remedy is equally efficacious in other diseases, as talks with people I have sold Favorite Remedy to affirm. To my knowledge right in our town Favorite Remedy has cured people suffering from rheumatism, dyspepsia, kidney, liver and urinary troubles."

Since the publication in one of the New York medical journals of the case of Mr. E. P. Tayer, of East Nassau, N. Y., Dr. Kennedy's Favorite Remedy has been increasing in sale. Mr. Tayer had suffered for fifteen years with inflammatory rheumatism. His case was practically abandoned by his physicians. Favorite Remedy was brought to his notice and in less than three months after its use he was a well man.

In commenting on this case Dr. W. H. Morse, of New York City, says: The great good in Favorite Remedy lies in its power to dissolve this deadly uric acid. In cases of dyspepsia, eczema, scrofula or any urinary diseases I have never known it to fail, when taken according to directions. Dr. Kennedy's Favorite Remedy is not only used by physicians now but can be found on sale by every medicine dealer.— *Wilkes-Barre (Pa.) Times.*

Summer Excursion Routes and Rates via the Pennsylvania Railroad Company.

The 1893 edition of the Pennsylvania Railroad Company's annual book of Summer Excursion Routes has just been issued. It is tastefully gotten up and presents in a most practical and comprehensive manner about four hundred popular summer resorts, from which excellent selections may be made for either limited trips or extended sojourns during the summer and early fall months.

The great variety of routes suggested, the complete schedules of rates, the graphic and exhaustive descriptions of the different places, the explanatory maps and the illustrations, make this volume a most valuable guide.

Copies of the book may be ootained at any ticket office of the Pennsylvania Railroad on payment of ten cents, or upon application to the General Passenger Agent, Pennsylvania Railroad, Philadelphia, it will be forwarded upon the receipt of twenty cents.

Interesting Items From Various Points in the County, Reported by Our Staff of Correspondents

BERWICK.

W. J. Mansfield has gone to Media, Pa., taking with him his trotting colt to be put in the hands of W. H. Boggs for training for the races this fall. Mansfield has gone to large expense in breeding fine horses for fleet; a short while ago he went to Kentucky and spent big money in purchasing one of the best stallions of that state.

The houses of A. H. Hartman, Samuel Hartzel, Nathan Yohey, George Creasy, J. F. Keen, and Lloyd Faringer, are nearing completion at Nescopeck.

Merchant McGraw, of Beach Haven, is candidate for county Commissioner with fair prospects of success—so well and favorably known throughout Luzerene.

Frank Fenstemacher, of Nescopeck, will soon be an efficient business man of Berwick. He is puttiug up three dwelling houses here on Front street, at lower Berwick.

The wind up of our High School in all their exhibitions were of the most satisfying craracter, superceding anything that has gone before it. Prof. Richardson and his assistants have done remarkably well, in the past year in the training and development of our youth.

B. R. Davis, of Freeland, has been visiting us.

Hudson Owen and Miss Mary Jackson have been visiting Philadelphia.

Mrs. S. F. Headly, the wife of a former well known citizen of Berwick, died at Morristown recently.

Our base ball club is reorganized, enlarged and strengthened It is intended to make it one of the best along the river. Seven hundred dollars is the fund to work upon. It will have new uniforms ere the season closes. Chas. Williams, Captain; Wm. Varrick, Assistant Captain; Col. Seeley, McAnall, Fowler, and Townsend Board of Managers.

Other base ball clubs will find some difficulty in handling this club.

Mrs. Eaton is having her house repainted, so with Frank Brittian.

Minor Hartman has gone into extensive repairs on his house on Second street.

Our night watchman, Wm. Zeigler has improved his residence on Third street nicely, and has put a fine bay window there, handsomely replenished with plants and flowers.

Dillman Varner is putting up a neat and comfortable home on Third street.

Mr. Isaiah Bower on Second street has just received a large installment of dry goods, that commands a ready sale.

W. H. Martz is building for himself a nice frame house on Trout street., will soon be completed.

Alonza Sult, now under full headway with a large force in the laundry business in upper Berwick, is turning out splendid workmanship. There is nothing superior in the state in the way of handsome laundry work: and yet we have citizens, who send their dirty linen to Wilkes-Barre and Scranton to have it repaired. The way of building up a town is to support home industry. It is self protection and not run off with your money among strangers.

JERSEYTOWN.

An End to the County Auditor.

The system of auditing the accounts in the various counties of the State has always been a supervision of the acts of county officials that began at the wrong end. The new office of County Controller, to be filled by election in counties containing 150,000 population and upwards, will go a long way toward effecting salutary reforms and the correction of some manifest abuses. The new County Controller audits in advance instead of after the Commissioners have settled contracts and agreements generally, and from the day he goes into service until the close of his three-year term he is a useful and all important individual.

The new law covers the counties of Allegheny, Berks, Schuylkill, Lancaster, Lackawanna and Luzerne, although under the strict construction of the census of 1890, Berks with 137,327 population, Lackawanna with 142,088 and Lancaster with 146,095 do not come under its provisions. Since the last census, however, all three have passed beyond the required figure and unless otherwise decided upon they are entitled to the benefits the acts unquestionably confers. Berks, by census, lacks most of meeting the prescribed number of inhabitants, but a recent census of Reading shows an increase of over sixteen thousand in that city alone, and the county easy reaches the terms of the law.

By doing away with the old and cumbersome machinery found in the Board of county Auditors, the county Controller at once establishes a form of government of the most valuable character. He passes upon the receipts and expenditures, debts and accounts of every county official. As a check upon the county Commissioners he acts as a public monitor of the treasury, and no action can be taken nor can any expenditure of money be made without his approval. A detailed estimate of the revenve required must be made out by him before the first day of February of each year, and, according to the extent and nature of his estimate, the Commissioners must base the rate of taxation. The annual county account that now finds presentment by the Auditors at the close of the year, as the result of labors practically amounting to nothing, is part of the duty of the new Controller, and when it is seen that under the operations of the new law the Commissioners become only a body of nominal powers it is apparent that the new official creates changes in existing usages and customs of the most heroic nature. There is very little left for the Commissioners to do beyond drawing their usual perquisites.

By the old methods the Commissioners made out the warrants, filed the tax rate, entered into contracts, invited bids and proposals for county work, ran the records in secret to suit themselves and ruled on the order of a close corporation, often to the detriment of the tax-payers. The new Controller now becomes the ministering power and he must minister openly. Any tax-payer can look over his books and every act must be a public matter. He can have no closed doors to his office and the condition and state of the public funds is always thoroughly known. Nothing can be hid.

This will be a revolution in counties like Schuylkill, Luzerne and Lancaster, where heretofore the comparatively unimportant office of county Auditor has been much sought after on the ground doubtless, that as a public office it was a private snap. Deals in small fortunes will cease. After the new law becomes generally operative the way will doubtless become quite clear to an amendment including every county of the State under its benificent provisions—*Times.*

OUR WORLD'S FAIR LETTER.

(From our Special Correspondent.)

Chicago, June 12, 1893.

The steadily increasing attendance at the Exposition shows that at last the tide of travel is setting this way and that the throngs at Jackson Park will no longer consist of Chicagoans. The latter will continue going as often as before but the majority of the visitors on the grounds will be strangers. Thursday nearly 179,000 persons paid to enter the Exposition. This large attendance was mostly due to the presence of the Infanta of Spain, the Princess Eulalia. It was Princess day. When the princess and her suite entered the grounds at the west end of the Midway at Cottage Grove Avenue a salute was fired by a battery from Fort Sheridan. The royal party passed through the Plaisance and direct to the Administration building, where breakfast was served at 1 o'clock. Then they visited the Woman's building, where an informal reception was held. In the evening a grand display of fireworks was given in her honor. The "White City" never showed to so good advantage as it did Thursday night. The basin in front of the Administration building was a sea of fire, while sky rockets were as thick as stars. The principle feature of the display was a massive portrait of the princess composed of 20,000 separate burning pieces of fireworks. Yesterday the princess spent the entire afternoon in visiting the Midway Plaisance. Monday she says she will see the "Wild West" as she once witnessed it in Paris, where Col. W. F. Cody was introduced to a number of the Spanish Royality.

Nebraska dedicated her state building Thursday with great enthusiasm. Over a thousand residents of the state were present to take part. The ceremonies began with the arrival of Buffalo Bill and his cohorts headed by the Cow Boy band. They marched into the grounds at 60th street and lined up along the art gallery, the United States troops extending to the Nebraska building. As Col. Cody rode up on a prancing horse, Gov. Crounce and his staff and Commissioner Garneau appeared on the piazza and the soldiers saluted. Commissioner Garneau formally turned the building over to the governor of the state. Governor Crounse accepted the building in a fine speech. Among the many things he said about the growth of this western state he said: "If Columbus had kindly delayed his discovery a few years, or if the settlement of Nebraska had been started a quarter of a century earlier at the pace she has already set I have no doubt she would have stood high in rank with her competitors. But time has not ripened her industries, nor has age matured the creations of her enterprise. Nebraska has not an extensive nor varied exhibit at the Fair, yet I am proud to assist in dedicating Nebraska's modest offering to the Columbian Exposition." Ex-Gov. Furness concluded the ceremonies by a happy little speech, in which he said that Nebraska had the fattest cattle, the prettiest women and the sweetest babies in the world.

Norway's interesting exhibit in the manufactures building was thrown open yesterday afternoon. This exhibit was delayed on the water many weeks and therefore they are behind. The 9,000 square feet occupied by Norway is on the east side of the main aisle near the south entrance. Many fine exhibits are shown her. An interesting exhibit of the ski (Norwegian snow-shoe,) used for climbing mountains and shooting down the steep incline with race-horse speed, is shown in great variety. Norway ships a large amount of wood pulp and sulphate for paper making to this country, and this important industry has an exhibit to itself. Boats, tapestries, various liquors and wines, with some very fine wood carvings, are other interesting features. The section opened with little ceremony.

Next week some young women from Utah will show the public, that is, all that care to visit the Utah building, the entire process of making silk goods. In a wide tray beneath one of the windows, hundreds of silk worms will be fed mulberry leaves by a young lady. Another girl operates a hand-loom and weave silk dress goods in sight of the visitors. This will be as interesting an exhibit as one can find in the way of manufacturing on the grounds. Utah has a very cozy little home, and every one feels upon entering the doors that here is a place to rest and be comfortable. The reception ladies are very gracious to all the visitors and try to make them welcome in every way.

The Fair will be closed hereafter on Sundays. The people on the grounds are more than delighted, they will now have a day of rest as well as the outsiders. No one seems to care if the Fair is to be closed. Six days is enough of that hubub and din.

According to a contemporary this kind of a swindle is being worked in this and adjoining States; A clerical looking man appears at the house of a prosperous farmer and announces he is a minister who is going to preach at a neighboring church. Soon after a young couple ride up and ask the farmer to direct them to a minister, as they wish to get married. The preacher offers his services, the ceremony is performed and the minister asks the farmer and his wife to sign the marriage certificate. They readily do so and soon receive a notice of a note in bank.

Why Not Tell the Truth?

There has been some criticism, unjust and unwise, of the administration because of the recent outflow of gold. Why not state the facts? Under Harrison's administration the net loss of gold to the United States by export was $122,624,000, and the free gold was reduced from $97,874,422 to $987,000. Under President Cleveland's former term the net gain in gold imports was $54,772,000.

FROM ALL AROUND THE STATE.

News Gathered from all Sections of the Commonwealth.

HARRISBURG, June 14.—Governor Pattison has approved the bill relating to the naturalization of aliens and prohibiting the payment of expenses connected therewith by officers and members of political organizations and by candidates. The law provides that the certificates of naturalization shall be printed on parchment paper and it shall be unlawful for any officer or any member of any committee or organization of any political party, any candidate for office, or for any person in behalf of said committee, organization or candidate to pay or furnish the money to pay or in any way become responsible for the payment of the fees and expenses directly or indirectly incurred by an alien in attending upon any court for the purpose of and in obtaining his naturalization papers. The penalty for the violation of this section is $50 fine to be paid into the county treasury.

If any person convicted and sentenced to pay a fine or fines shall refuse or fail to forthwith pay said fine or fines and costs to the magistrate, alderman or justice of the peace before whom he is convicted or give satisfactory security to be approved by said magistrate, alderman or justice of the peace to pay the same within ten days, he shall be committed to the county jail there to be held one day for every five dollars of the fine or fines which he has been sentenced to pay. It is provided, however, that said imprisonment shall not prevent the collection of said fine or fines and costs by legal process.

The most important of the measures vetoed by Governor Pattison yesterday was Senator McCarrell's bridge bill amending the corporation law of 1874 by providing for increase of tolls on bridges when authorized by the court of quarter sessions in certain cases.

PHILADELPHIA, June 14.—The difficulty between Lieutenant Colonel Streater, of the Thirteenth regiment, who became prominent through the Iams affair at Homestead, and Captain Thurber T. Brazier, of the State Fencibles, which occurred in Washington at the inauguration of President Cleveland, has been settled. There will be no court-martial, as asked for by Captain Brazier.

It seems the Thirteenth regiment and the Fencibles were quartered in the same building and, because of the noise made by the latter, Lieutenant Colonel Streater attempted to pass the sentinels to secure quiet. He was halted by Captain Brazier, when the two officers had some words, charges followed and a court was asked by the captain. The charges have been in the hands of Major General Snowden since last March.

WASHINGTON, June 14. — Fourth-class postmasters were appointed in Pennsylvania yesterday as follows: Beavertown, Snyder county, Jacob G. Snyder, vice A. H. Bowersox, resigned; Bethayres, Montgomery county, Garrett McDowell, vice Isaac Michener, resigned; Elk Grove, Columbia county, Mrs. Eliza J. Hess, vice J. J. Burcher, resigned; Fogelsville, Lehigh county, Richard J. Klotz, vice Pharon P. Mohr, removed; Hampton, Adams county, George S. Diller, vice A. Myers, removed; Madison, Westmoreland county, Henry Wallace, vice Miss Sibbie Albright, resigned; Mazeppa, Union county, John L. Bitting, vice E. M. King, removed; Osborn, Mercer county, Elson H. Spears, vice John S. Clark, dead; Sawyer City, McKean county, Frank A. Meldrum, vice Clarence A. Williams, resigned.

GETTYSBURG, June 10.—The agitation over the proposed removal of the theological seminary at Gettysburg was brought before the board of directors composed of ministers and laymen from the district synod, which met here. The proposition that was presented by Dr. Butler, of Washington, D. C., offering a site, known as the Cook residence, in Georgetown, near the National capital, was considered and rejected. In view of the fact of the historic ground owned by the church at Gettysburg, with present building and a late bequest of $22,000, it was almost unanimously agreed that the old building be repaired at a cost of $5,000 and a new building erected consisting of recitation halls and library at an expenditure of $15,000.

LEBANON, June 9.—On Thursday night of last week the clothing store of Levi Sir, of this city, was robbed, and next day the burglars were arrested with the plunder in their possession. All gave fictitious names and residences. Yesterday Chief of Police Badenbough, of Norristown, had business here and visited the jail, when he identified the six burglars as a desperate Norristown gang, nearly all of whom have served one or more sentences in the Eastern penitentiary.

CARLISLE, June 12.—Charles Salyards, the convicted murderer, now in jail here awaiting sentence, has repudiated spiritual advice. He has received a letter from a clergyman advising him to read the Bible and prepare for the day of his death. The convict has informed Sheriff Strock that he is not now in a position to be annoyed by such letters, and will refuse to open them if sent by ministers of the Gospel, as he prefers to select his own counsel.

GETTYSBURG, June 13. — The Adams county democratic convention yesterday nominated the following ticket: District attorney, Charles S. Duncan; sheriff, Jas. A. Cratin; treasurer, J. A. Menchey; clerk of the courts, Edward M. Bender; register and recorder, J. F. Carbaugh; commissioners, William A. Sell and H. J. Hemler, and director of the poor, John H. Musser.

TAMAQUA, June 13.—James Boyer, a worthless character, came home drunk and, starting a quarrel with his wife, became so enraged that he threw a beer bottle at her. The bottle broke when it struck her and cut a gash in her throat from which she is now at the point of death. Boyer has been committed to jail to await the result.

WEST CHESTER, June 9.—The 9-year-old daughter of George Glenn, Pennsbury, was dragged into a woods and assaulted by the hired man. At the point of a revolver Glenn made the man walk to West Chester, where he was lodged in jail. There is much excitement in the neighborhood and threats of lynching were indulged in.

NEW CASTLE, June 9.—Samuel Truby climbed high in a big tree on the Shenango river bank and shot fish in the riffle of the river. A breaking limb dropped him to the ground, and then he fell over a cliff fifty feet. The bones in both legs were terribly shattered, his spine is injured and and he is contused from crown to sole.

PORT CLINTON, June 10.—While leaning from a cab window here, Alfred Runkle, engineer of Philadelphia and Reading coal engine No. 676, was struck by lower Port Clinton bridge and had his head crushed, dying instantly. He lived at Cressona, was 35 years old, and leaves a small family.

WASHINGTON, June 13. — Fourth-class postmasters in Pennsylvania were appointed yesterday as follows: Marion Centre, A. H. Allison; Metal, Alice Swank; Soradville, J. A. Wray; Valier, A. J. Means.

A BIG BREAK IN FREIGHT RATES.

Some Cuts that May Disturb Two Powerful Associations.

NEW YORK, June 10.—There has been a big reduction of freight rates out of New York to all Mississippi river points. This may well be regarded as the first serious menace to rates in the territory of the Trunk Line Association and that of the Central Traffic Association.

The cuts made by the Southern and Canadian Pacific companies affect only Pacific coast traffic and do not disturb the situation in the east. The reductions made were by the Kanawha Despatch and Savannah steamship line. They made a clean cut of fifty per cent on dry goods and certain other first-class products from this city to the Mississippi river, which is the junction point between the eastern and western associations.

The Savannah line's rate is 36 cents per 100 pounds, the old rate being 72 cents. The Kanawha Despatch, which runs over the Chesapeake and Ohio railroad, went one better and put in a rate of 35 cents. The National Despatch, which is a Grand Trunk line, anticipated the low rates of the above mentioned companies by announcing on Wednesday a rate of 50 cents. Its former rate was 82.

The object is to reach points west of the Mississippi river, so that the standard rates of the western railroads have to be added to these reduced rates. From the Mississippi river to Kansas City, for example, the first-class rate is 55 cents.

The same rate cutters have also reduced the tariff on all cotton goods from the mills. The National Despatch has put into effect a 33 cent rate between New York and the Mississippi river, and its competitors are shipping goods for 28 cents.

WHITE LEAD WORKS IN ASHES.

Philadelphia Visited by a Disastrous Blaze.

PHILADELPHIA, June 10.—The Philadelphia whiting works, at No. 2609 East York street, of which George W. MacKenzie is the sole proprietor, were totally destroyed by fire yesterday, causing a loss which is estimated at $40,000.

The building was a one-story stone and brick structure with a large frame loft used in the process of manufacturing white lead. Twenty men were employed in the building, working night and day. The night gang left for their homes, and when the day force arrived the building was in flames.

The blaze was discovered by a private watchman, who notified Officer Hoffman, and an alarm was sounded, but on the arrival of the engines the flames had made such headway that nothing could be saved.

A strange feature in connection with the fire, and one which points to incendiarism, is the fact that the flames broke out in the room in which the white lead is dried by cold air.

There was no stove or fire of any kind in this room when the night force left, and Mr. MacKenzie expressed the belief that the place was deliberately set on fire.

The building, which is owned by E. A. Jessup, was damaged to the extent of about $5,000. The loss on the machinery and stock is estimated at $35,000, on which there is an insurance of $25,000.

A Deserter and Forger in the Toils.

NEW YORK, June 9.—John S. Yardley, a deserter from the United States army, was held here before Commissioner Shields yesterday on a charge of forgery. Yardly came here about a year ago from Maddison Barricks to get his pay, and received from Paymaster John B. Kiefer a check for $78.40. He raised the check to $878.40, got it cashed and deserted.

Courted in the Courtroom.

PARIS, June 10.—It appears that the sometimes monotonous sessions of the Behring sea tribunal have not been without romance. It was in the Behring sea courtroom that Mr. Edmund A. Benedict, of New York, and Miss Janette, Major Halford's only daughter, carried on their courting, which resulted in their marriage at Nottingham.

Counterfeiting English Notes.

CHICAGO, June 10.—Fred Kreuger and George Smith were arrested at No. 9 Loomis place yesterday. In the room a press and apparatus for making counterfeits of the Bank of England notes were found.

Why We Should Control the Nicaragua Canal.

In war or in peace the exclusive control of this canal will be to us of inestimable value. For attacking or defending the coasts of our hemisphere, and the islands adjacent thereto, it is more advantageously situated than is Gibraltar for the Mediterranean. As a means of uniting the East and the West, it will be of more value than is the Suez Canal for uniting England with India. The latter saves but 3600 miles, while the Nicaragua Canal saves 9500 in the voyage from the Gulf ports to San Francisco.

If we are to continue our policy of protecting the smaller states of the two Americas against the larger ones, and all of them against foreign encroachment, we must control the canal. We must also defend our own country. Our Pacific coast is nearly defenceless. From New York to San Francisco it is 13,000 miles by water—half the circumference of the globe. Between the same points by the canal it is only 5000 miles. From New Orleans to San Francisco it is 13,500 miles. The canal will cut this distance down to 4000 miles, a still greater saving. Now England can hurl a fleet against our western ports by way of the Suez Canal or from Australia, while another fleet, with a base at home or at one of the numerous British strongholds along our eastern coast, is threatening the ports on the Atlantic.

Not only in war, but also in competing for the commerce of the world, and especially of the western hemisphere, will the nation controlling the Nicaragua Canal have an immense advantage. No trade will flourish unless protected by the strong arm of military power, and no better example of this can be cited than that of England. Where all the great nations of the world meet in the canal, and the nations through whose territory it runs are so miserably weak, the inevitable result will be that it will fall into the hands of some great power. If that power be not ourselves, then we may safely bid farewell to military or commercial supremacy in America. The golden moment is now here when possession is easy.—*Harper's Weekly.*

Are You Nervous,

Are you tired out, do you have that tired feeling or sick headache? You can be relieved of all these symptoms by taking Hood's Sarsaparilla, which gives nerve, mental and bodily strength and thoroughly purifies the blood. It also creates a good appetite, cures in digestion, heartburn and dyspepsia.

Hood's Pills are easy to take, easy in action and sure in effect. 25 cents a box.

Charcoal is valuable as fuel, but it has other uses which make it one of the most serviceable of articles. When laid flat, while cool, on a burn, it causes the pain to abate; by leaving it on for an hour the burn seems healed when the wound is superficial. Tainted meat surrounded with it is sweetened. Strewn over heaps of decomposed pelts, over dead animals, charcoal prevents unpleasant odors. Foul water is purified by it.

A Million Friends.

A friend in need is a friend indeed, and not less than one million people have found just such a friend in Dr. King's New Discovery for Consumption, Coughs, and Colds.—If you have never used this Great Cough Medicine, one trial will convince you that it has wonderful curative powers in all diseases of Throat, Chest and Lungs. Each bottle is guaranteed to do all that is claimed or money will be refunded. Trial bottles free at C. A. Kleim's Drug store.

Camille Flammarian has arrived at the conclusion that in less than ten million years the land on our planet will be covered by water.

"Dear Sister,

"They charge you with being restless, irritable, excitable, and exacting.

"They don't know the horror that oppresses you.

"Every hour pains run rampant through your body. You suffer secretly as long as you can, then go all to pieces and 'don't care' what happens.

"The iron grip of female disease is upon you.

"Dear sister, *Lydia E. Pinkham's Vegetable Compound* has cured thousands like you.

"It has cured me, and I want to tell everybody.

"It kills the pain. No more backache, no more 'bearing-down,' no more restless days and sleepless nights. Oh! what a blessing! take it and be well! it's a sin to hesitate."—*Mrs. P. A. Quiett, North Hamlin, N. J.*

THE STORY PAID HIM.

Self-Gratification an Eminent Attorney's Fees.

The most eminent consulting lawyer of Paris at one time in the last century was the Abbe May, says the Manchester *Times*. His opinion had great weight in forming the decision of the judges, and he was often consulted in important matters outside the law. His fee for an opinion was usually a large one. The story of one of his exceptional fees is related by M. de Bois Saint Just in his history of Paris.

A cure from the country called on the abbe one day, and after complimenting him with earnestness and sincerity on his creditable and deserved reputation, said that he was involved in a lawsuit which he did not understand. He asked the abbe to advise him whether he was in the right or in the wrong, and whether he had better carry on the suit. So saying he delivered to the great jurist an enormous package of papers covered with almost illegible hand-writing. The abbe cheerfully accepted the task and told the cure to call again in two weeks. He was pleased with the good, simple-hearted man and devoted his best energies to clearing up the case though he was obliged to put other matters aside in order to do so. The cure called on the day appointed, took the abbes written opinion and read it through critically. He was delighted with the enthusiasm and clearness with which his rights were set forth. He embraced the abbe gratefully and cried: "Ah, monsieur, no one could be better pleased than I am, and I want you to be satisfied also. Here is money, monsieur. Please take what is due you," and he threw a three-franc piece on the table. Not to humilate the good man, the abbe picked up the coin, took thirty-six sous from his purse and handed his client the change. Someone said, when he told the story, that as usual he had lost by his disinterestedness.

"Lost!" said the abbe. "And do you count the pleasure of telling the story nothing."

What Singers Eat.

Not long ago a list was published of the drinks favored by the great singers of modern times. Different wines were regarded by different vocalists as possessing desirable qualities, and London stout was the prime favorite of a very large proportion of vocalists. A writer in a musical journal attaches as much importance to what singers eat as to what they drink; and as he has had a large experience in engaging singers for important tours in this country, his opinion is worth listening to. He says he never loses time in looking for a fine vocalist in a country where fish and meat diet prevail. He has found that vocal capacity disappears in families as they grow rich, because they eat more meat.

The Italians who eat the most fish—those of Naples and Genoa—have few fine singers among them. In Ireland the sweet voices are found in women of the country, but not of the towns. Norway is not a country of singers, because the people eat too much fish; but Sweden is a country of grain and song. The carniverous birds croak; grain-eating birds sing.

This is a very sweeping indictment, but it does not alter the fact that many of the best singers of the day include a moderate quantity of meat in their daily bill of fare. Precept and practice, however, do not always go together. A reporter of a New York paper called on an eminent tenor one night at an opera house for the purpose of ascertaining his views on the question whether or not smoking was injurious to the voice. The singer, who had just come off the stage after a long and exhausting scene, said he considered that smoking was a decidedly bad thing for the voice; and having given this opinion he offered a cigarette to the reporter and lit one for himself.

Her Breach of Promise Case.

A well-known attorney in Detroit, when he first hung out his shingle, didn't know anywhere near as much as he knows now about the mysteries of the profession, if the *Free Press* is to be relied upon.

His first client was a young woman who wanted to bring a suit for breach of promise.

He asked her to tell him all the circumstances, and she did. When her story was finished he shook his head doubtfully.

"I don't know much about this," he said. "You say he asked you to be his wife?"

"Yes, sir."

"And you said you would?"

"Yes, sir."

"Then he left and didn't come back any more?"

"Yes, sir."

"Um-um," hesitated the attorney; "did you ask him to be your husband?"

"Of course I didn't."

"Did he promise to be?"

"No, sir."

"Did he say anything further than for you to be his wife?"

"No, sir."

"Well, my dear miss, I don't see where there was any breach of promise, do you? The fact is you were careless, and I don't see how you can win this case. You'll have to be more particular next time. You"—but she didn't wait to hear any more of his advice; she bounced out and got another attorney.

WE TELL YOU

nothing new when we state that it pays to engage in a permanent, most healthy and pleasant business, that returns a profit for every day's work. Such is the business we offer the working class. We teach them how to make money rapidly, and guarantee every one who follows our instructions faithfully the making of $300.00 a month.

Every one who takes hold now and works will surely and speedily increase their earnings; there can be no question about it; others now at work are doing it, and you, reader, can do the same. This is the best paying business that you have ever had the chance to secure. You will make a grave mistake if you fail to give it a trial at once. If you grasp the situation, and act quickly, you will directly find yourself in a most prosperous business, at which you can surely make and save large sums of money. The results of only a few hours' work will often equal a week's wages. Whether you are old or young, man or woman, it makes no difference,—do as we tell you, and success will meet you at the very start. Neither experience or capital necessary. Those who work for us are rewarded. Why not write to-day for full particulars, free? E. C. ALLEN & CO., Box No. 420, Augusta, Me.

Novelties in Ladies' Outing Costumes.

At this season of the year when so many ladies are planning their prospective trips to the country, the question naturally arises in regard to an appropriate traveling costume, which experience teaches is an indispensable garment for every woman tourist to possess. Moreover, a well ordered wardrobe presupposes in addition, an outing costume. The selection of the latter is a problem of no mean importance, for it consists in finding a model both stylish and comfortable and which may, at the same time, prove a judicious economy. On the other hand lovers of out-door pastimes are in quest of novel designs for garden parties and tennis costume, while for those who prefer our fashionable watering resorts, a bathing suit is, of course, *de rigueur*. Now, since all the above essentials of a summer outfit follow the dictate of Fashion, and since there is, nowadays, as much style in a bathing or tennis suit as in a traveling or outing costume, one is obliged to conform to the current modes. The McDowell Fashion Magazines are precisely calculated to the desired information on these matters, for they contain the best and largest variety of new models direct from Paris. "La Mode de Paris" and "Paris Album of Fashion" each cost $3.50 per annum, or 35 cents a copy. "The French Dressmaker" is $3.00 a year, or 30 cents a copy. "La Mode" costs only $1.50 per annum, or 15 cents a copy. All these magazines include much more valuable information besides. They can be subscribed for or purchased at any newsdealer, or by applying directly to Messrs. A. McDowell & Co., 4 West 14th Street, New York.

One word describes it—"perfection." We refer to De Witt's Witch Hazel Salve, cures obstinate sores, burns, skin diseases and is a well known cure for piles. W. S. Rishton, Druggist. 10-14-1yr.

Harper's Weekly for June 17th will devote five pages to Edwin Booth. The text will include an intimate account of the tragedian's life by his friend Laurence Hutton, and will be embellished by several portraits and by illustrations of the actor in his favorite roles and of his home at The Players' Club, which he founded. A page of drawings will be devoted to the illustrations of the *Campania*, the queen of ocean racers. The Philadelphia open-air horse-show and the New York horse-show at Manhattan field will be amply illustrated. Another of "The Adventures of Sherlock Holmes," "The Reigate Puzzle," by Dr. A. Conan Doyle, and additional chapters of "The Cliff Dwellers," will be printed in this number, which will also contain a page illustration, "In and About the Midway Plaisance" at the Chicago Exposition.

If you can afford to be annoyed by sick headache and constipation, don't use DeWitt's Little Early Risers for these little pills will cure them. W. S. Rishton, Druggist. 10-14-1y.

Marriage.

On the 5th inst, at the home of the bride by Rev. A. Houtz, Mr. William D. Creasy and Miss Miriam R. McHenry, both of Fishingcreek township.

I have had catarrh for twenty years, and used all kinds of remedies without relief. Mr. Smith, druggist of Little Falls, recommended Ely's Cream Balm. The effect of the first application was magical, it allayed the inflammation, and the next morning my head was as clear as a bell. I am convinced its use will effect a permanent cure. It is soothing and pleasant, and I strongly urge its use by all sufferers.—Geo. Terry, Little Falls, N. Y.

An American, Mr. Henry, in Louguyon France, has constructed a clock entirely of paper, which has run regularly for two years, with no greater variation than a minute a month.

Mrs. J. H. HORSNYDER, 152 Pacific Ave., Santa Cruz, Cal., writes:

"When a girl at school, in Reading, Ohio, I had a severe attack of brain fever. On my recovery, I found myself perfectly bald, and, for a long time, I feared I should be permanently so. Friends urged me to use Ayer's Hair Vigor, and, on doing so, my hair

Began to Grow,

and I now have as fine a head of hair as one could wish for, being changed, however, from blonde to dark brown."

"After a fit of sickness, my hair came out in combfulls. I used two bottles of

Ayer's Hair Vigor

and now my hair is over a yard long and very full and heavy. I have recommended this preparation to others with like good effect."—Mrs. Sidney Carr, 1460 Regina st., Harrisburg, Pa.

"I have used Ayer's Hair Vigor for several years and always obtained satisfactory results. I know it is the best preparation for the hair that is made."—C. T. Arnett, Mammoth Spring, Ark.

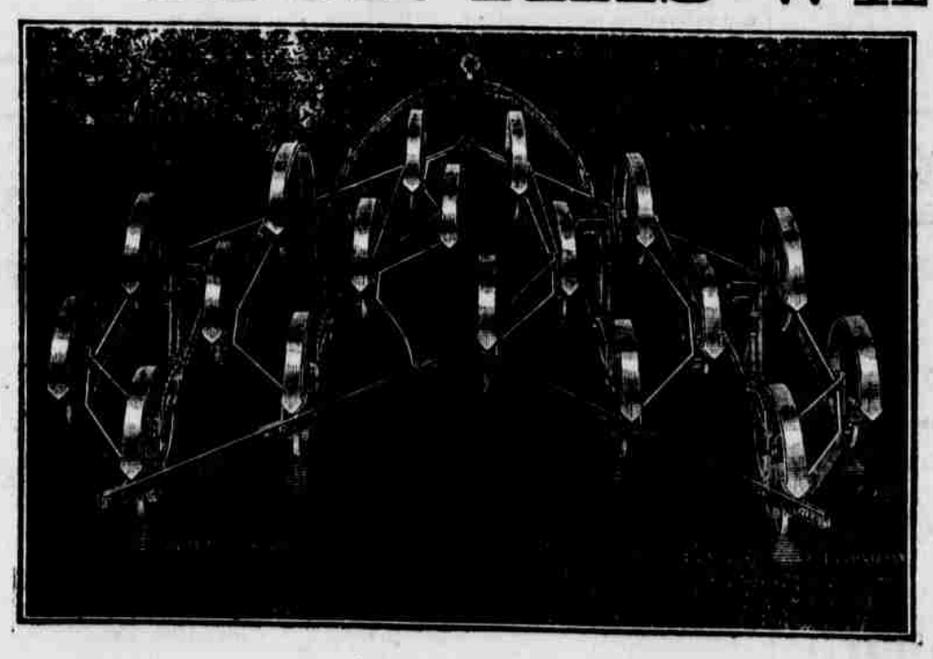
LOOK THIS WAY!



TO Farmers and the PUBLIC -in- General

We wish to say that we are still manufacturing and dealing in Agricultural implements at Orangeville, Pa., and certainly from long experience we should know the wants of the Farmers and public in general. And, in this connection we wish to say that all machinery we manufacture or handle is equal to any on the market, and sold at lowest prices.

We make a good cast head Land Roller, which every Farmer should have. Also Plows, Scotch Harrows, Cultivators, Wood Saws, Corn Shellers, and Feed Cutters, and a specialty of Horse Power Threshing Machinery. Then we handle the 'Empire" Fertilizer, Grain Drill and Hay Rake, "Hench's" Walking and Riding wheel Cultivators, "Woods" Harvesting machinery (which needs no recommendation), single and double Corn Cultivators, Engines and Saw Mills etc. Lastly we wish to show up the **New Deerfield Lever Harrow** the only one that has a separate adjustment for each tooth independent of the levers. The only four lever Harrow on the market whereby the two centre sections can be let down in a dead furrow, or any one or more of the four sections can be raised and the balance of the teeth kept at work, frame at all times being level. It has a self coupling hinge, no bolts or pieces to lose, with circular steel evener to equalize draft while turning corners. This Harrow is no experiment with us, and will be put out on their merits same as any other goods.

We also make and carry a large stock of Plow repairs, also an endless variety of other implement repairs. We are also prepared to do almost any kind of saw or grist mill repairing (having recently put in new Iron Lathe and boring machinery etc. We also carry a full line of dressed building lumber. We appreciate the patronage of the public in the past and covet a continuance of the same in the future and will be glad to have any one call to see us, or answer their inquiries for anything in our line and will quote lowest prices.

WHITE & CONNER.
